## Cal-Buster™

**Product Name:**  
Cal-Buster™

**Part Number:**  
Refer to Conco Standard Size Chart for Cal-Buster™ Tube Cleaner

**Application:**  
For straight tube condensers and heat exchangers. This cleaner is specifically designed to fracture the “egg-shell” like crystalline form of calcium-based scale deposits. Normally used in conjunction with a standard Conco type C3S or C4S tube cleaner for removal of these deposits after they have been fractured. These cleaners have effectively been used in lieu of environmentally unsafe chemical methods.

**Description:**

- Safe, water powered tube cleaner.
- DO NOT USE AIR.
- Solid nylon (plastic) body, with two or three stages, containing four each cutting wheels.
- Custom sized and set for tube ID, as well as scale deposit thickness.
- Color coded heads to distinguish size and control travel speed.
- Size: ¾”, 7/8”, 1”, 1-1/8”, 1-1/4” OD in all BWG’s.

**Storage Information:**  
Cleaners are used exclusively per each cleaning job. Once the job is complete, the cleaners are disposed of.

**Auxiliary Equipment Required:**  
Conco water gun, nozzle, outlet, Model 200 Booster Pump. Conco type C3S or C4S tube cleaners.

**Determination of Quantity:**  
The calcium carbonate tube cleaners can be used for approximately 8-12 shots each. Simply divide the total number of tubes by eight or twelve.

PLEASE NOTE: The cleaners can be rebuilt by Conco by replacing and resetting with reused wheels. Testing must be conducted before cleaner size or style is determined.
